

# The 25th International Symposium on Microsomes and Drug Oxidations

„Microsomes and Drug Oxidations: From Structures to Regulations and Modeling“

Prague, Czech Republic, July 7 - 10, 2024

Congress hotel Olšanka

**Save the Date for the 25th International Symposium on MICROSOMES and DRUG OXIDATIONS (MDO) "Microsomes and Drug Oxidations: From Structure to Regulation and Modeling" 7-10 July 2024, Prague, Czech Republic**

The 25th International Symposium on Microsomes and Drug Oxidations (MDO) will be held in Prague in 2024 on the theme "From Structures to Regulation and Modeling". The MDO meeting will once again bring together world-renowned scientists in the fields of drug metabolism, drug-metabolizing enzymes, preclinical development, biochemistry, biophysics, molecular and structural biology, toxicology, physical chemistry, pharmacology, pharmacogenetics, and drug development to share and discuss the latest advances in drug metabolism and disposition. The symposium will be held at the Olšanka Hotel in Prague, Czech Republic, from 7-10 July 2024.

The scientific program will be divided into several thematic symposia comprising 22 different sessions and 6 plenary lectures highlighting the latest advances in the study of drug and xenobiotic metabolism and disposition.

The 25th International Symposium on Microsomes and Drug Oxidations provides an excellent opportunity to encounter the latest scientific discoveries as well as network with colleagues from around the world. At the same time, participants will have the opportunity to enjoy the unique mix of medieval architecture and preserved monuments of Prague, a UNESCO World Heritage City.

We look forward to seeing you in Prague in 2024!
